

## Hospital providers, 2006-07

For the 2006-07 financial year, Hospital Episode Statistics (HES) has collected more than 60 million records detailing outpatient appointments, delivered by NHS hospitals in England or performed in the Independent sector, commissioned by English NHS.

The latest HES data are available via the internet from the Freely available data section of the HESonline website [[www.hesonline.nhs.uk](http://www.hesonline.nhs.uk)]. For data breakdowns beyond the scope of the tables available, such as a count of appointments split by strategic health authority (SHA), please contact the HES team: Tel. 0845 300 6016, email [hes.questions@ic.nhs.uk](mailto:hes.questions@ic.nhs.uk).

Please note that in order to avoid undue delay in the publication of these tables; the counts have not been adjusted to account for shortfalls in the number of records received from NHS trusts, or for missing/invalid clinical data (ie diagnosis and operation codes) – hence the label 'Ungrossed data' in each table.

You must exercise great care when comparing HES figures for different years. Fluctuations in the data can occur for a number of reasons, e.g. organisational changes, reviews of best practice within the medical community, the adoption of new coding schemes and data quality problems that are often year specific. These variations can lead to false assumptions about trends. We advise users of time series data to carefully explore the relevant issues before drawing any conclusions about the reasons for year-on-year changes.

### Data quality

The HES database is assembled from records originally generated by the patient administration systems within more than five hundred separate NHS trusts. While the HES team liaise closely with the NHS in order to maintain data quality and consistency, it is inevitable in such a complex undertaking that a few errors will occur.

Detailed NHS Trust DQI Reports are available on the HESonline website [[www.hesonline.nhs.uk/Ease/servlet/ContentServer?siteID=1937&categoryID=452](http://www.hesonline.nhs.uk/Ease/servlet/ContentServer?siteID=1937&categoryID=452)]. The reports comprise both component and qualifier scores, including counts of the HES records and the data items examined.

Users of the data who discover apparent anomalies should feel free to contact the HES team, so that they may investigate.

## Hospital Providers

This table provides a breakdown of outpatient appointments by attendance type according to the organisation that provided the outpatient appointment, normally an NHS trust.
