

Hospital providers broken down by type of outpatient attendance, 2008-09

For the 2008-09 financial year, Hospital Episode Statistics (HES) has collected more than 74 million records detailing outpatient appointments delivered by NHS hospitals in England or performed in the independent sector, and commissioned by the English NHS.

Outpatient HES data was collected for the first time in 2003-04. The NHS Information Centre first released outpatient data at the end of July 2006 and the data was originally released on an 'experimental' basis. Since then, the experimental label has been removed and in 2008 the outpatient published tables were accredited as a National Statistic. This means the data within these specific tables has been produced in accordance with the '*Code of Practice for Official Statistics*'.

The outpatients' dataset contains individual records for all outpatient appointments occurring in England, such as the type of attendance, ie whether it was a first or follow-up attendance, or the main specialty, ie the specialty under which the consultant with prime responsibility for the patient is registered.

The latest HES data is available from the Freely available data section of the [HESonline website](http://www.hesonline.nhs.uk) [<http://www.hesonline.nhs.uk>]. For data breakdowns beyond the scope of the tables available, such as a count of appointments split by source of referral (ie whether or not the outpatient appointment was initiated by the consultant responsible for the outpatient attendance or not), please see the Request a tailor made report section of the HESonline website.

Great care must be exercised when comparing HES figures for different years. Fluctuations in the data can occur for a number of reasons, eg organisational changes, reviews of best practice within the medical community, the adoption of new coding schemes and data quality problems that are often year specific. These variations can lead to false assumptions about trends. We advise users of time series data to carefully explore the relevant issues before drawing any conclusions about the reasons for year-on-year changes.

Coverage and data quality

HES data is compiled from data sent by around 300 NHS trusts and primary care trusts (PCTs) in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre liaises closely with these organisations to encourage submission of complete and valid data, and seeks to minimise inaccuracies and the effect of missing and invalid data. While this brings about improvement over time, some shortcomings remain.

It is not mandatory for providers to code procedures and diagnoses on outpatient records and therefore the coverage is low. The poor coverage may in part be accounted for by the fact that there may be no appropriate OPCS-4 code available, or that the cause of morbidity was unknown. In 2008-09 around 3% of records had a known cause of morbidity and 8% of records had completed or appropriate OPCS-4 procedure codes. It is not clear how representative the figures are as we have no reliable existing data source to validate the data against; Department of Health aggregate returns have never collected clinical codes.

Please see the Outpatient Data Quality Reports from the Processing the data: Data quality of HES section of HESonline for more information about coverage and data quality issues.

Users of the data who discover apparent anomalies should feel free to contact the HES team at enquiries@ic.nhs.uk, so that they may investigate this further.

Hospital providers

This table provides a breakdown of outpatient appointments by all attendance type according to the strategic health of authority of treatment and organisation (usually NHS Trust) that provided the outpatient appointment.

Low-level analyses are more likely to contain small numbers, which might facilitate identification of individual patients, especially at a local level or for sensitive diagnoses or procedures (eg AIDS or abortions). They might also allow identification of an individual or hospital consultant, where local knowledge identifies a single consultant treating patients in a particular specialty. To protect patient and consultant confidentiality, figures between 1 and 5 have been suppressed and replaced with '*' (an asterisk). Where it was possible to identify numbers from the total due to a single suppressed number in a row or column, an additional number (the next smallest) has been suppressed. This is in line with the [HES Protocol](http://www.hesonline.nhs.uk/Ease/servlet/ContentServer?siteID=1937&categoryID=331) [http://www.hesonline.nhs.uk/Ease/servlet/ContentServer?siteID=1937&categoryID=331].

Table column definitions

This section contains descriptions of the column headers found in the tables that you can download from the HESonline website.

Attended first appointment

This provides a count of those who attended their first face-to-face outpatient appointment.

Attended first telephone consultation

This provides a count of those who attended their first outpatient telephone consultation.

Attended subsequent appointment

This provides a count of those who attended an outpatient appointment that was a follow-up face-to-face appointment rather than their first appointment.

Attended subsequent telephone consultation

This provides a count of those who attended an outpatient telephone consultation that was a follow-up appointment rather than their first tele-consultation.

Attended first/subsequent/telephone unknown

This provides a count of outpatient attendances where it was not known whether the patient was attending a first or subsequent face-to-face appointment or telephone consultation.

Did not attend first appointment

This provides a count of first face-to-face outpatient appointments where a patient did not attend and no advance warning was given.

Did not attend first telephone consultation

This provides a count of all first telephone consultations where a patient did not attend and no advance warning was given.

Did not attend subsequent appointment

This provides a count of all follow-up outpatient face-to-face appointments where a patient did not attend and no advance warning was given.

Did not attend subsequent telephone consultation

This provides a count of all follow-up telephone consultations where a patient did not attend and no advance warning was given.

Did not attend, first/subsequent/telephone unknown

This provides a count of all outpatient appointments where the patient did not attend, no advance warning was given and where the attendance type was unknown, ie a first or a subsequent face-to-face appointment or telephone consultation.

Patient cancelled first appointment

This provides a count of all first face-to-face outpatient appointments where the appointment was cancelled by, or on behalf of, the patient.

Patient cancelled first telephone consultation

This provides a count of all first telephone consultations where the appointment was cancelled by, or on behalf of, the patient.

Patient cancelled subsequent appointment

This provides a count of all follow up face-to-face outpatient appointments where the appointment was cancelled by, or on behalf of, the patient.

Patient cancelled subsequent telephone consultation

This provides a count of all follow-up outpatient telephone consultations where the appointment was cancelled by, or on behalf of, the patient.

Patient cancelled appointment, first/subsequent/telephone unknown

This provides a count of outpatient appointments where the appointment was cancelled by, or on behalf of, the patient, and where the attendance type was unknown, ie whether it was a first or subsequent face-to-face appointment or telephone consultation.

Hospital postponed/cancelled first appointment

This provides a count of all first face-to-face outpatient appointments where the appointment was cancelled or postponed by the health care provider.

Hospital postponed/cancelled first telephone consultation

This provides a count of all first telephone consultations where the appointment was cancelled or postponed by the health care provider.

Hospital postponed/cancelled subsequent appointment

This provides a count of all follow-up face-to-face outpatient appointments where the appointment was cancelled or postponed by the health care provider.

Hospital postponed/cancelled subsequent telephone consultation

This provides a count of all follow-up telephone consultations where the appointment was cancelled or postponed by the health care provider.

Hospital postponed/cancelled appointment, first/subsequent/telephone unknown

This provides a count of outpatient appointments where the appointment was cancelled or postponed by the health care provider, and where the attendance type was unknown, ie whether it was a first or subsequent face-to-face appointment or telephone consultation.

Not known

This provides a count of outpatient appointments where the attendance type was unknown, ie whether a patient attended their outpatient appointment/telephone consultation or whether the appointment was cancelled by the patient or the hospital.

HES 2008-09¹ Outpatient Data Quality Note

The data quality note will be updated in the event of issues arising post-publication. A summary of changes made will appear in the table below. For the most recent version of this data quality note, please refer to the [HESonline website](http://www.hesonline.nhs.uk) [http://www.hesonline.nhs.uk].

Version control	
Date	Summary of Update
21/10/2009	2008-09 Outpatient Data Quality Note published

The following issues have been identified in the 2008-09 outpatient data:

Developing Data Set

The outpatient data set is a developing data set which has a number of continuing issues regarding quality and coverage of certain key fields.

The latest information on these issues can be found on the [HESonline website](http://www.hesonline.nhs.uk/Ease/servlet/ContentServer?siteID=1937&categoryID=898) [http://www.hesonline.nhs.uk/Ease/servlet/ContentServer?siteID=1937&categoryID=898].

Known provider issues: specific issues

Coventry and Warwickshire Partnership NHS Trust (RYG)

Attendance Type

Description

Coventry and Warwickshire Partnership NHS Trust (RYG) have notified that there is corrupt data with their submission of Attendance Type.

Impact: there are 5000 corrupt records within this field. This Trust's data should therefore be interpreted with caution.

Mersey Care NHS Trust (RW4)

Attendance Type

Mersey Care NHS Trust (RW4) has notified that there are data issues with their Attendance type field due to technical errors in submitting the data.

Description

There is no differentiation between new and subsequent outpatient appointments and as a result in 2008-09 99% of all attendances are shown as first attendances at this trust compared to 2007-08 where approximately 30% were first attendances and the remainder were subsequent attendances.

Impact: this Trust's data should therefore be interpreted with caution.

¹ Data submitted to SUS by 12 June 2009.

Known provider issues: coverage issues

The following organisations have shortfalls; their data should be interpreted with caution

Organisations with shortfalls / missing data			
Organisation name	Org. code	Months affected	Approx. no. of records missing
Havering PCT	5A4	Sept	700

North East Lincolnshire Care Trust Plus	TAN	Nov - Mar	4,500

Kingston PCT (5A5)

Description

Kingston PCT (5A5) has very high counts for January to March 2009. This is currently being investigated

Impact: this Trust's data should therefore be interpreted with caution. Please be aware the increase in January to March 2009 may affect national or regional figures.

North Lincolnshire PCT (5EF)

Description

This Trust submitted data up to May 2008. Activity for the rest of the 2008-09 year is recorded under Rotherham, Doncaster and South Humber Mental Health NHS Foundation Trust (RXE).

Impact: this Trust's data should therefore be interpreted with caution.
